

Teachers– Here’s a science kit for you!

The Wisconsin Soybean Marketing Board has provided 59 Soybean Science Kits for teachers to use in their classrooms. The kit has the resources and supplies for 21 hands-on experiments for grades 4-9th. The lessons cover the scientific fundamentals and principles of using biological, renewable resources. The kits have supplies, equipment, instructional video, interactive CD-ROM, and a copy of ***The Super Soybean***. What a great way to connect agriculture to science! All lessons are aligned to National Science Education Standards. Don't miss this great resource!

To find your closest kit, visit www.wisagclassroom.org
