

WHO MOVED MY POPCORN?

A spatial awareness activity!

There are ten letters that are in the triangle. Change the triangle so that it points down. Move one letter at a time. You only have three moves.

To make this easier, place kernels of popcorn on the empty triangle to do your trial-and-error attempts.

Fold over here until you solve the puzzle!

Answer:

- 1- Move G so that it is next to B
- 2- Move J so that it is next to C
- 3- Switch A from the top to the bottom of the triangle to make the point
